### The Farmer's Wife

In very careful about her chura. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it

akes foul all which is put into it?
The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemthe pure current of blood and the dissen-ination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and san bath do for the churn—absolutely removes every tainting or corrupting ele-ment. In this way it cures blotches, pimples, cruptions, excofulous swellings, tores, or open eating ulcers and all humors or diseases arising from bad blood. If you have bitter pasty foul tasts in

### A NEW DEPARTURE.

Rev. Dr. Curtis Lee Laws, who went to Brooklyn a year ago from Baltimore, to assume the pastorate of the Green Avenue Baptist Church, is engaged in a new method of conducting church work. He has sent out a thousand letters containing eight questions to professional, business and laboring men.

The following are the questions asked and the manner in which they will be put into sermon subject form:

"What, in your opinion, is the reason why men are not as interested in religions matters as women !

in the churches? Is the fault with the men or the churches?

"In your dealings with men have you found professing Christians nobler in character than self-respecting non-Christians?

"Can a man, in your opinion, govern his life by the highest Christian ideals and vet succeed in present-day busi-

"Do you believe that the Bible is from God and that it is the supreme guide of our lives? It so, why do you so believe

"The churches are often criticised for exclusiveness and selfishness. Can you saggest ways in which the churches could be of greater service to the com What practical work can they munity? do which they are not already do-

og?"
Dr. Laws has received many answers to these questions and he will deliver sermons on lines set forth by his correspondents.

RURAL TELEPHONES. A representative farmer of Greenville county, S. C. told the writer some time sgo that so dependent had he become upon the telephone, that he sometimes wondered how he had ever managed to get along without this convenience. This man had long realized that the telephone was saving him many hours of time and many miles of travel, Business that before required an entire day taken from his work, to transact, could now be attended to in a few minutes. It was not necessary for him to go to town to ascertain market conditions. If he bad produce or fruit to sell he could learn the prices being paid and perhans make his sale before leaving home. He was able to keep in touch with the world. His family did not feel that it was cut off from the outside. No matter how bad the roads were the telephone would advise as to where the doctor could be found, how sick friends or relatives were, whether or not there would be preaching at the church and how much mail there Degree courses in Agriculture, Horticulture, Appled Chemistry, Applied Geology, Civil, Mining, Mechanical and Metallography, and Preparatory Veierinary Medicine. ADVENT POSTPONED.

As firmly convinced as ever that the end of the world is due within the twenty-four hours ending at 6 o'clock tonight, the Triune Immersionists were occupying their camp at Ashdod, Mass., last night, praying, singing, and shout-

ing hysterically.

The coming of the end was postponed resterday meruing, and the lesders of cult announced that the stories that have gone out to the world during the last few days, to the effect that the end was due at 10 o'clock yesterday morn-ing, were erroneous. According to their belief, the first day was to be marked by signs and omens in the heavens, and when at noon a tremendously impressive array of deep black clouds piled up in the western sky, those who had watched for Christ's coming were sure the hour was at hand.
